THANKSGIVING PROCLAMATION.

President Roosevelt Sets Aside Nov. 27, as Annual National Holiday.

President Roosevelt has issued a proclamation designating Thursday, November 27, as a day of National Thanksgiving. The proclamation is as follows:

According to the yearly custom of our people, it falls upon the President at this season to appoint a day of festival thanksgiving to God. Over a century and a quarter has passed since this country took its place among the nations of the earth and during that time we have had, on the whole, more to be thankful for than has fallen to the lot of any other people. Generation after generation has grown to manhood and passed away; each has had to bear its peculiar burdens, each to face its special trials, and each has known years of grim trial. When the country was menaced by malice, domestic or foreign; when the hand of the Lord was heavy upon it in drought or flood or pestilence; when in bodily distress and anguish of the soul, it paid the penalty of its folly and forward heart, nevertheless, decade by decade, we have struggled onward and upward. We now abundantly enjoy material well-being and under the favor of the Most High, we are striving earnestly to achieve moral and spiritual uplifting.

The year that has just closed has been one of peace and overflowing plenty. Rarely has any people enjoyed greater prosperity than we are now enjoying. For this we render heartfelt and solemn thanks to the Giver of all good, and we also to praise Him not by words only, but by deeds, by the way in which we do our duty to ourselves and to our fellowmen.

Now, therefore, I, Theodore Roosevelt, President of the United States, do hereby designate as a day of general thanksgiving, Thursday, the 27th day of the coming November and do recommend that throughout the land the people cease from their ordinary occupations and in their several homes and places of worship render thanks unto Almighty God for the manifold blessings of the past year.

In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed. Done at the City of Washington, this, the 29th day of October, in the year of our Lord, one thousand nine hundred and twenty, and of the Independence of the United States, the one hundred and twenty-seventh. See?
O, gee.
Ain't this land of the free
A bird?
Have you ever heard
Of anything so absurd
As the way we keep our word?
But don't you worry
Or be in a hurry,
For we're going to scurry
Around and pay off the mortgage.

Holds on us, or bust;
And then we play fair
And make it square.

SHARPSBURG WANTS A LINE.

Citizens Address the Mayor Urging Extension of N. Middle-town Road.

Already the prophecy that the proposed Lexington and North Middletown electric railway may become a trunk line seems of early realization. It is now proposed to extend the line to Sharpsburg, twelve miles beyond North Middletown.

Mayor Duncan, of Lexington, received a special delivery letter from the principal business men of Sharpsburg Wednesday, asking for consideration of a proposition to extend the line. Sharpsburg is on a direct line from Lexington via North Middletown. Following is the letter received by Mayor Duncan:

Sharpsburg, Ky., Oct. 29, 1902.
Major H. T. Duncan,
Lexington, Ky.

"Dear Sir:—We take the liberty to write you, seeing your name as a member of a committee of business men to meet the citizens of North Middletown, Ky., to discuss the electric road from Lexington to the latter point. Not seeing the notice of this meeting in *The Morning Herald* until too late to be in Lexington today, we take this method of placing our town before you as a desirable and profitable extension of this line. Since these traction systems were first originated through the Blue Grass region, our citizens have been very much in favor of a line from Lexington to Sharpsburg via North Middletown, and we think the greater majority want that line and no other. We have had propositions for other routes, that is from Sharpsburg to Mt. Sterling or Carlisle, but have never given them any encouragement.

We are situated twelve miles from Mt. Sterling and twelve miles from Carlisle, our nearest railroad points. According to statistics, we are in the best farming country in the world, the statistics showing that the Flat creek land of Bath county, which is in our territory, is the best, most fertile and productive land in the world. We are twelve miles from Licking river by turnpike. As a shipping point we would command the traffic to Licking river and a distance of at least twenty miles up and down said river, aside from a distance of at least six to eight miles north, south and west of town.

The fuel of the entire community is coal, which at present must be hauled by wagon from Mt. Sterling or Carlisle. Our principal crops are corn, wheat and tobacco, the latter of which is the most extensive as to shipping. By an estimate of Hon. Waller Sharp, the most extensive tobacco dealer in the county, an aggregate of twelve million pounds would be shipped from this point annually. These, aside from the live stock, etc., to be shipped out, and the vast amount of coal and merchandise to be shipped in, together with the passenger traffic, would, we think, be to Lexington a good feeder, and we respectfully ask your consideration of said route.

We would be glad to give you any further information regarding this section. We are about ten to twelve miles from North Middletown, and should you run a line to that point, we feel that it will be much to your interest to extend to this place."

The above was signed by all the business men of Sharpsburg and vicinity.

Last Saturday the first mails over the rural routes of Clark county started from the Winchester postoffice.

SALVATION

For the Kentucky Mountains—W. J. Lampton's Appeal for an Industrial Education.

Writing in the New York Sun in support of the Lincoln Memorial University of Cumberland Gap for the education of young men and women of the mountains, W. J. Lampton writes as follows of the Kentucky mountaineers:

"There are 500,000 people living tributary to Lincoln University who have in them the genuine quality of the American, but it has no opportunity of development, and the result is, through all that section, we find poor farms, poor homes, poor food, poor liquor, poor education, poor religion, poor everything that might and should be made good and wholesome."

"There prevail the bloody feuds that have put there red marks on the history of those States, and there ignorance holds the people in thrall. It isn't book learning to those people need, but training in how to make homes livable places; to be taught the little amenities of life; to be taught how to prepare the food that is in abundance about them; to be taught how to get the most out of the opportunities they have; to be taught some thing of social pleasure, the proper association together of their own kind; to be taught how to build their houses, and how to keep them when they are occupied; to be taught the "sowing machine" instead of the shotgun; to be taught the more modern ideas of living, the more modern appliances of labor, the more modern ideas of the world's progress; to be taught sanitation and cleanliness; to be taught new things to take the place of the old that have kept them back three-quarters of a century. Nowhere in this country can a more primitive people be found than among these mountainers."

"No one knows or can know what manner of people these are until he has gone among them. Many of them are capable, and have managed, in a way, to keep fairly abreast of the times, and to be fairly modern in their ideas, but the majority, less capable, are far behind, and the opportunity being lacking for their betterment, they remain in the rut. Yet the results at Lincoln University, and at other schools which in a small way have been attempted, show conclusively that these people are ready and willing to come out of the darkness that has shut them in for 150 years."

Demand for Morgan County Coal.

The development of the cannel coal fields in Morgan county has proceeded so rapidly that about thirty cars a week are now being handled by the Ohio & Kentucky railroad to the Lexington & Eastern for the Central Kentucky trade. The transportation facilities are for the present behind the demand for the coal and the question of cars to handle it is now becoming a serious one. Much of this cannel coal is now being used in the Chicago trade.

The Covington Post says: Among those who registered Tuesday was Justus Goebel, but recently returned from Arizona. He gave his address as 57 East Sixth street, Covington, and, of course, registered as a Democrat. His appearance as a voter in Covington is looked upon by some as an evidence of his determination to devote some time to politics from now on.

NEW OWNERS.

The Louisville Commercial Passes to a New Company Shortly to be Incorporated.

The Louisville Commercial, a Republican morning paper, owned by the Duponts, of Wilmington, Del., has been sold to a company which will be incorporated with Harrison M. Parker and Charles M. Palmer, of New York; Young E. Allison, Washington Flexner and George A. Newman, Jr., of Louisville, as incorporators. The new owners will take charge as soon as the necessary formalities can be gone through with.

Beckham Eligible.
That Gov. Beckham is eligible under the State Constitution to succeed himself as the Chief Executive of Kentucky is held by former Chief Justices W. S. Pryor and J. H. Hazlrigg, former Governor J. Proctor Knott, former Congressman William T. Ellis and Col. Lewis McQuown, all leading constitutional lawyers in an opinion furnished the Governor.

The question was raised by former Congressman John K. Hendrick, of Paducah, who recently announced his candidacy for the Democratic nomination for the office of Chief Executive.

Gov. Beckham has not as yet made a formal announcement of his candidacy for re-election, but will do so in the next few weeks.

The Kentucky Constitution provides that the Governor shall be ineligible for a succeeding term if term is four years. Governor Beckham, at the close of the present term, will have served three years and eleven months.—Blue Grass Clipper.

Other prominent lawyers say he is ineligible.

DISTRESSING

High Prices of Provisions of all Kinds Cause Orphans Home Managers to Ask for Aid.

The Board of Managers of the Lexington Orphan Asylum makes the statement that it has not been able to pay current expenses during the year, and appeals to friends of the institution for help. The endowment fund is small, and as rates of interest have declined, they have not been able to pay expenses, even with the help of the city and the county. There are now thirty-five children, several of whom have been sick with scarlet fever during the past month. The cost of provision of all kinds is so high that the Board is compelled to appeal to the benevolence of friends for assistance.

A similar state of affairs exist in the Winchester orphan's home.

Preacher Uses Knife.

In an altercation at Paducah growing out of the pranks of a mischievous boy, the Rev. G. W. Briggs, pastor of the Broadway Methodist church, and a widely known minister, stabbed and seriously wounded Mr. T. J. Garr, the proprietor of the Inn, a fashionable boarding house, where Mr. Briggs and his family were making their home. Mr. Briggs is one of the most eloquent and prominent ministers in the Methodist Church, South.

Good Prices Paid for Bath County Farms.

Near Sharpsburg, Judge L. S. Rodgers sold his 200 acre farm to Robert Clark for \$20,000, or \$100 per acre. This is the best price for a large farm ever paid in Bath county. Robert Clark sold his farm to Oscar Chandler for \$7,300 cash. M. C. and C. Bots bought of E. E. Peck seventy-five acres of land for \$1,687.50.

Foxhunters Meet.

The National Foxhunters' Association will meet at Bowling Green, Ky., November 10th. Col. Lee Hathaway, of Winchester, is First Vice President of the Association.

The Winchester electric street railway is nearing completion and it is expected that the cars will be running by November 15. The suspension cables are in place, the track is completed and the stringing of the trolley wires is about all that remains to be done.

Shot-Gun Prescriptions.

We suppose we are not revealing any trade secret when we say that many medicines are made up on the principle of the so-called "shot-gun prescriptions," which were formerly somewhat in vogue.

The idea of the shot-gun prescription was to put in a large number of different drugs, each useful for different purposes, in the hope that some of them might hit the case.

Violin, the medicine we sell over our name and guarantee, is not a scattering "shot-gun prescription," but goes straight to the mark.

It is the best thing we know for a run-down condition, for a listless feeling, nerve troubles, for lung troubles—in fact, it is a safe, pleasant, reliable tonic and reconstructor.

The Cost of War.

Apart from humanitarian sentiments, the budgets of the nations need but casual study to convince one of the folly of war. Of course, there have been wars where the highest principles have been involved. There have been from time to time, and probably will recur as long as man is man, conditions that demand betterment and arouse the loftiest instincts of liberty and self-preservation in a nation, even to the point of drawing a sword. But Mars is not long on principle. Greed, jealousy the barbaric love of blood itself, too often are the ruling incentives on one side or the other in international contests. And when the strife is over there is not only suffering and misery in thousands of homes ravaged by the battle demon, but there is as a general heritage of debt that, with its accumulating interest, falls heavily upon the shoulders of posterity.

Take the national debt of Great Britain. This year it is estimated at about \$3,850,000,000, and of this one fourth of it is directly traceable to wars during the last sixty years.

A billion dollars of war debt left unpaid by one country in less than two generations!

**THEDFORD'S
BLACK DRAUGHT
THE GREAT
FAMILY MEDICINE**

Thedford's Black-Draught has saved doctors' bills for more than sixty years. For the common family ailments such as constipation, piles, diarrhea, colds, sore throat, rheumatism, neuralgia, headache, biliousness, chills and fever, biliousness, headaches and other like diseases, nothing else medicine is necessary. It invigorates the system, relaxes the liver, assists digestion, stimulates action of the kidneys, strengthens the heart, purges the bowels of foul accumulation. It cures liver complaint, indigestion, sour stomach, flatulence, colic, constipation, piles, biliousness, colds and headache. Every drug sold at \$1.00. Never accept a rubbership. Insist on having the original made by the Chatanooga Medicine Company.

I believe Thedford's Black-Draught is the best medicine on earth. It is good for anything and everything. I have family and friends, and for four years I have kept them on foot and healthy with no doctor but Black-Draught. A. J. GREEN, Newara, La.

Capt. W. T. Short made a successful raid on Aunt Creek, Estill county, recently, when he destroyed a whole still together with about eleven hundred gallons of beer and sixty gallons of low wine. The operator, Jack McKinney, is now in the Richmond jail awaiting his trial in the November term of the Federal court.

Law Did Not Pass.

A misapprehension exists as to whether or not the Legislature passed the bill introduced at the last session prohibiting the sale of quail killed in this State between the open dates for quail shooting November 15 to January 1. The bill, it appears, failed to pass the Senate, hence there is nothing this year to keep Kentucky hunters from marketing their quail in this and other cities of their State—Winchester Democrat.

"Lock Your Lips."

"Lock your lips, children," said the teacher. Instantly the childlike voices ceased their prattle, and all the little lips in the kindergarten were tightly closed. Two or three youngsters evidently could not trust themselves to keep silence without extra precaution, and it was with considerable amusement that I noticed them holding their lips together with their fingers.

As I watched these kindergartens most of them scarcely more than babies—I thought that, if some of us older people were willing to humble ourselves and become "as one of these little ones" we might learn a valuable lesson. The unkind and unjust words spoken in anger, and often repented of as soon as spoken, are gone with the sting and the smart. They cannot be recalled. How many bitter feelings and heartaches might be spared if some of us only locked our lips instead of obeying the first impulse to speak unkindly! And even with locked lips, if not sure of ourselves, would it not be wise to follow the example of the children, and hold our lips close together with our fingers until the anger has died out of our hearts?

W. J. Shively, Batesville, O., speaking of Banner Salve, says: "I used it for piles, and it has done me more good than any salve I have ever used, and I have tried a good many kinds."

We are Back from New York WITH Bargains for All.

We went on the buyers' excursion to the great metropolis, and never was time and money more profitably spent by us, but it was you we were thinking of--of how best we could serve your interests by serving our own. We are now ready for fall trade as we were never ready before. Not a dollar's worth of unseasonable goods has been left in our new stock. Everything is new, spick and span.

Wagon load after wagon load of new goods have been continually unloaded at the Great Busy Bee Cash Store until progress along the street was impeded. For one whole week people had to walk around or pick their way through the wall of boxes that surrounded the entire store.

The proprietors of this Great Bargain mast the Busy Bee Cash Store gave instructions to their buyers before going East to leave nothing undone to make this the banner fall of their business career in this city, and the buyers have certainly exerted their skill to its utmost capacity. Shelves, counters, ledges, and every available space in the large store is stacked and piled from floor to ceiling and are creaking and groaning under the immense weight of the new goods piled on them.

Our new Dress Goods are creating a big noise among the ladies who have seen them and the pretty, nobby stuff is already beginning to go out in large quantities. Our ladies know a good thing when they see it, and the beauty and elegance of these new things are so striking that they are taking advantage of them while they can get them.

Our Men's and Boys' Clothing is so far superior to any of our past efforts that it will be a death blow to all competition. Just think of buying a good Cassimere Suit for Boys for 98¢, a good Wool Cassimere Suit for Men for \$3.48. Our stylish, nobby suits will cost you just half the price other merchants ask you for the same things. Our Overcoats are already on the move, and wise customers are selecting now while they can get the new styles. Have a look at our Clothing; it will pay you.

Already our customers are beginning to say that we never will sell all the Cloaks, Wraps, Jackets, Rnglans, Monte Carlos, Fur Jackets, Furs of all kinds, Ladies' ready-made Tailored Skirts and Tailor-made Suits that fill the tables, racks and even piled on the floor in our Tailor-made Suit and Cloak Department. The like was never before seen in Mt. Sterling. It is a sight worth coming miles to see whether you want to buy or not. The new style garments will tempt you and low cash price will sell you.

Our Underwear fills nearly one entire side of our big store. Underwear to suit everybody. No name prices, space won't admit. Don't pay over price for Underwear. Get posted; get our prices and qualities before you buy.

All the little notions that one needs are to be had here, and there's not as much to pay for them as elsewhere. No imitations or seconds; get standing room here. You pay for what you get, and you get what you pay for.

Fleisher's Shielan Floss, 9¢ per bob. Best Spool Cotton, 4¢ spool. 10¢ Blanket, blue and red border, 8¢ pair up. 10¢ Bed Sheet, 100% cotton, 72 and 83/4. Good Percale 50 yard; best, 8¢; 3/4; 53/4. We are showing the latest things in Livilies' Fancy Hoisery from 25¢ to \$1.50 per pair. Our new line Hoisery in all other grades, is very complete and our prices are the lowest for all goods. Get our prices on Blankets and Comforts. They are piled mountain high in our store and must go out.

War to the Knife, the Knife to the Hilt,
Is the ruthless command that has gone forth against high prices in our Shoe Department. You can buy any style and kind, all the best qualities in Shoes and Boots at prices for good stuff that you pay for trash elsewhere. Don't buy a Child's, Woman's, Man's or Boys' Shoe or Boot until you have seen our bargains. We give you the best qualities. Our prices are the lowest.

For money saving read every offer carefully. Our way of selling goods is not to linger, but get them out and make room for others. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Real Service.

He who has a new vision of higher life, and sweeter privilege in Christ, and tells it to others and leads them there, is doing as real missionary service as he who chooses the sea, or the back-ground of heathen character outlines the life of Jesus, and first says to pagan chieftain, "Behold the man." There is no holier ministry than bearing the light of the gospel to the nations enveloped in the darkness of heathenism.

Who Are Heroes?

Poverty will yet assign the chief places of honor in the world's true Pantheon of heroes to those who save, and not to those who destroy. Not to the Alexanders of Macedonia, the Caesars of Rome, the Napoleon's of France, but to the Bonifaces of Germany, the Cæsars of India, the Living-tones of Africa. If we can not be whom the world calls great, let us be like unto them, and the heavens that know our limitations will pronounce us good and great enough.

Going Nowhere

It was Johnny, the seven year old, who tired of the "merry-go-round." The previous summer it had fascinated him, and he could not ride on it often. This season a single trip satisfied him, and he declined another. "No, thank you, grandfather," he said in his quaintly polite way. "You see, we ride and ride, but we stay under that old tent all the time. I guess when anybody gets to be seven years old, they are too big to care about going and going that doesn't get anywhere."

"Now, may the boy hold fast to his wisdom," commented the grandfather, relating the incident. —Wellespring.

Withdraws.WASHINGTON, Ky., Nov. 8.
Mt. Sterling Advocate:

I wish you to inform the people through the columns of your paper that I have decided to withdraw from the race for Representative, as the committee has so arranged this convention as to deprive me of the vote of my many friends in Menefee. I don't think it is quite fair, as I have always understood Democracy to be the rule of the will of the people. I had an apparent ~~the~~ friend decided once to seek this same committee to leave the nomination of our next Representative to Menefee, but fearing a misdeal he came to the town of Frenchburg and called a couple of the Great lights on political issues in a secret place, consulted them, and was informed that it was risky, so they agreed to depart from hence, one going east, one west, one north, and one south, and in the view of ~~the~~ men who would express their self in the election and also all that failed to express themselves. They returned and counted their oaths and found themselves considerably in the minority. They consulted again and agreed to depart from the uncertainties of Menefee and fly to the more genial climate of Montgomery.

I wish the people of Montgomery county to consider the manner in which he is trying to slip around and climb up some other way, and get to the place of a Representative. I imagine that he is thinking of the honor it will bring him to his party, but that is not the thing for the Democrats of Montgomery county to consider. We wait a man that will be an honor to the office he holds instead of the office honoring the man. I am very thankful for the interest my friends in both counties have taken in my behalf for the short time that my name was before the people and wish to thank them very kindly as I feel under so many obligations to them as I would if I had received the nomination. Here is getting the best man will get the nomination and one hurrah for the nomination.

The funeral service was held at the Christian Church on Tuesday morning by Rev. H. D. Clark. The burial was at the family grave-yard on the Winchester pike, where rest her kindred dead. Mrs. Reid was in many particulars a remarkable woman, strong of mind, conscientious on every question of justice, ready to lift up the fallen, to comfort the sorrowing and alleviate every pain of the suffering. She was a daughter of Josiah and Fannie Davis, and at the age of sixteen became the second wife of Henry P. Reid. She was a sister of his first wife. She had seven children, only two of whom survive her, Mrs. Pattie Bright and Mrs. Mary V., wife of Allen Prewitt. Two brothers also survive her, Dr. W. R. Davis, of Bentonville, Arkansas, and Samuel T. Davis, Fair Haven, Mo. Her brother James died in Paris, Texas, where lives a large family of grand-children. Early in life she became a member

of the Celestial city with the loved ones forever.

A delightful occasion was that last Friday evening when Miss Mary Tamm entertained her Sunday School class with a display of articles and garments from the Holy Land. She died at Hinckley Bridge, in life, left widow, with responsibility of a large family of children, who financed successfully, lifting a debt from the farm, and leaves behind a nice competency. She departed this life at the age of 77 years, full of hope, anxious to enter upon the reward for the saints of God. In her last days the writer had talked with and labored to make her happy over what she has accomplished for earth's weak ones, but regretfully she was not able to do more for them. SAMUELS.—Harry Orr Samuel, aged 19 years, died at the home of his mother, Mrs. Mary R. Samuels, in this city, on Saturday morning, November 1st, 1902, after many months of confinement, and heroic endeavor to overcome that dread disease, consumption. The funeral service was held at the house on Sunday afternoon by Rev. Jno. E. Clark. Many and beautiful floral offerings attended the esteem in which he was held by loved ones and friends. He was childlike, of sweet and gentle disposition, possessed of rare musical talents, and was a child of God through faith in the Christ. He rests from the sufferings of earth life, and will live on in that land where sorrows never come and where there will be no discord or break in his desire and talents for music. We have lost one who has gained. To his family we thus express our sympathy.
